Dear Mr. Baughman:

Enclosed is the Draft Compendium of In-Situ Radiological Methods and Applications at Rocky Flats Plant that we agreed to deliver on or before April 2, 1993. This document includes discussions of the various instruments used to detect, measure and monitor radionuclides at the Rocky Flats Plant.

This draft is an important first step in providing information that will be useful to your staff and others in evaluating radiological characterization methods at Rocky Flats Plant. We invite your continued participation in the development and refinement of this document. Please call Bob Birk of my staff at 966-5921 if you have any questions about this document.

Sincerely,

Robert H. Birk
